(Bihar and Assam not available)

The towns of Hathras and Etawah in U. P., and Malegaon in Bombay province recorded high death rates of 59.8, 51.1 and 54.5 per thousand of the population respectively. These high death rates were largely due to deaths from fevers.

(B) State and Unions.—The data here relates to 18 towns with an estimated population of 1,997 thousands. The total number of towns is 24 and their population is 2,623 thou-

sands. Thus 76% of the total number of towns representing 76% of their total population is covered. The numbers of births and deaths recorded in these towns were 1,059 and 549 representing birth and death rates of 27.7 and 14.1 per thousand of the population respectively. No town recorded a high death rate of 50 or over per thousand of the population.
